"Never underestimate the power of a few committed people to change the world. Indeed, it is the only thing that ever has."
Margaret Mead - Anthropologist

Building a Low Carbon World 2007—Newsletter issue 1

As we advance towards the conference date of the 26th April 2007 the hosts and organisers of the conference, Quintain Estates and Development PLC, are pleased to announce some exciting new partnerships and contributors to the event. Please visit the conference website for the [latest agenda](#)

Live Earth Concert Organisers support our initiative

The organisers of the forthcoming Live Earth concert series taking place on 7/7/07 have pledged their support to the Building a Low Carbon World Conference. Live Earth, a project of the Save Our Selves (SOS) campaign, is a global initiative which has been developed by the team who produced Live 8. Reaching people in every corner of the planet through television, film, books, radio, the Internet and Live Earth, the SOS campaign is designed to trigger a global movement to combat our climate crisis. The proceeds from Live Earth will form the foundation for a new, multi-year global effort to combat the climate crisis led by The Alliance for Climate Protection and its Chair, Vice President Al Gore. SOS was founded by Kevin Wall, who won an Emmy as Worldwide Executive Producer of Live 8. Both initiatives are being supported by The Climate Group. [read more](#)
